Priority number(s): JP20030412612 20031210

[Report a data error here](#)**Abstract of JP2005168769**

PROBLEM TO BE SOLVED: To enable a user to easily recognize the interchangeability of connection across systems from the outer appearance.

SOLUTION: Display of the interchangeability of connection can be added so that the interchangeability of connection between a probe and a processor across endoscopic systems. For example, the endoscopic system 1A comprises the processor 9A with a receptacle 8, the probe 11 with a plug 6 connected to the receptacle 8 of the processor 9A, and color cord parts 30p and 30r as interchangeability discrimination display means capable of displaying the interchangeability of connection between the processor 9A and the probe or adding the display of the interchangeability of connection.
